Health & Eco Haz, Exp, Risk pieces are needed for the attached cases.

Please work on 'Hair on Fire' first, then the others in order of appearance on the spreadsheet unless/until we make different prioritizatoin.

I am pretty certain that some of these cases have been done already, so it may be best to check with Ex. 6 Personal Privacy (PP) and Ex. 6 Personal Privacy (PP) to understand where they have placed the completed cases...CCD seemed to indicate Health writeups might be in two places.

Thanks!
